

INDIAN JOURNAL
OF
THEORETICAL PHYSICS

Founder Director : Late Prof. K. C. Kar, D. Sc.

VOLUME 25

1977

Published by the
INSTITUTE OF THEORETICAL PHYSICS
BIGGAN KUTIR, CALCUTTA-700004

BOARD OF EDITORS

M. Ghosh	S. D. Chatterjee	A. Roy Chowdhury
S. Sen Gupta	P. P. Chattarji	(Mrs.) C. Dutta
A. N. Basu	D. K. Sinha	J. Biswas
	A. K. Bhattacharyya	

NOTICE TO CONTRIBUTORS

1. The manuscript of each paper for publication in this journal should be typed on one side of the paper and should be accompanied by a short abstract. Two copies of each paper should be submitted.
2. All the references to the published papers should be numbered serially and given at the end of the paper.
3. Diagram should be drawn on thick white paper in Indian ink. Tables should be typed on separate sheets. The cost of block making will be borne by the author.¹
4. The papers to be published in the journal should be original on theoretical physics or on experimental physics with theoretical background.
5. Avoid mathematical steps as far as possible. All mathematical expressions, should be typed as far as possible, with unavailable symbols inserted neatly in ink. Be sure to distinguish between capital and small letters. Avoid complicated superscripts and subscripts. Avoid repetition of a complicated expression by representing it by a symbol.
6. Letters to the Editor, Review articles and Booklets on recent topics will also be published.
7. Fifty copies of reprints of each paper, except review articles and booklets are given free of cost to the contributor.

All communications to the Secretary, Institute of Theoretical Physics, Bignan Kutir, 4/1, Mohan Bagan Lane, Calcutta-700004.

Subscription Rates

<i>Per volume</i>	Rs. 40'00 (Bonafide Indian Party)
„ „	Rs. 80'00 or \$ 10'00 or £ 5'28

Back Volume Rates

*Back volumes at Rs. 120'00 or Equivalent Dollars
or Pounds per volume*

Indian Journal of Theoretical Physics is published quarterly in March, June, September and December.

VOLUME 25

C O N T E N T S

Page

March

- Electrical response in a piezo-electric plate
transducer under the influence of a body force
—*Pradip Kumar Sen* 1

- Note on the vibration of circular plates of
variable thickness
—*J. C. Kunda and S. Basuli* 9

- Multi phase flow of incompressible immiscible
fluids in an annulus
—*V. K. Kapoor and R. P. Singh* 15

- Reflection of electron plasma waves from flat
plane boundary
—*D. C. Agarwal* 21

- On torsional transient motion of a visco-elastic
Maxwell liquid between two concentric spheres
—*T. R. Roy* 27

- Remarks on a reduction scheme for principal
value collision integrals
—*B. R. Wienke* 31

- Letter to the Editor : De Broglie waves, length
contraction and time dilatation
—*M. F. Podlaha* 37

- Obituary 41

June

- A note on disturbances in a piezo-electric slab
due to a tangential electric field of periodic type
under the influence of a body force and when a
constant heat flow is maintained
—*N. C. Ghosh* 43

- On mechanical response in a piezo-electric
transducer subjected to a current flowing in a
semi-conducting boundary layer
—*Alok Chakrabarty* 51
- On the holography by object scanning
—*D. C. Agarwal* 61
- Flow cholesteric liquid crystal between two
parallel plates
—*A. K. Sharma* 65
- Drag on a circular cylinder moving with a
transient velocity in an infinite expanse of a
visco-elastic Maxwell liquid
—*T. R. Roy* 73
- Letter to the Editor: The angular momentum
group of four quarks
—*Gordon V. Berry* 79

September

- On the radiation from a magnetic line source on
a perfectly conducting plane into a compressible,
anisotropic plasma
—*D. C. Agarwal* 81
- Simultaneous development of momentum and
thermal boundary layers in a suddenly started
visco-elastic fluid in the entrance region of a
circular pipe
—*P. N. Tandon and S. C. Pokhariyal* 85
- Heat flow in a semi-infinite composite medium
with periodic surface temperature having a
contact resistance
—*Pradip Kumar Sen* 97
- Buckling of a heated thin annular circular plate
of variable thickness
—*Paritosh Biswas* 107

A note on flow of liquid in a visco-elastic tube	— <i>M. S. Guin</i>	113
A note on stress distribution in a plate under simple tension in electrostriction	— <i>S. C. Ghosh</i>	117
Book Review		123

December

On the theory of transmission lamellar grating	— <i>P. Sengupta and J. N. Chakravorty</i>	125
Dynamics of the longitudinal vibration of a non-uniform bar excited by impact	— <i>K. D. Ray and S. K. Sutradhar</i>	133
Note on the deflection of a right-angled isosceles triangular plate on viscoelastic foundation	— <i>Satyanarayan Mandal</i>	145
Non-linear laminar flow of fluid into a fully penetrating cylindrical well	— <i>K. K. Upadhyay</i>	149
Note on the unsteady flow of viscous fluid in an annular channel	— <i>S. Lahiri</i>	157
A visco-elastic two chambered model for pressure estimation in ascending and descending aorta	— <i>P. N. Tandon and V. K. Kapoor</i>	163
